#### Problem Statement

Inadequate capacity for smallscale poultry farmers to be economically self-reliant

#### Objective(s)

1. To build self-reliance capacity of the farmers through retained project earnings
2. To build capacity of experts in member countries through cooperation with Korean experts

#### Planned Activities

1. Recruit poultry farmers in Kiambu County
2. Build capacity of farmers in layer production and marketing
3. Establish small commercial layer complex

#### Outputs

Small scale commercially oriented layer complexes

#### Outcomes

-

#### Budget

63,000,000.00

#### Start date

2017-01-01

#### End date

2019-12-31

#### Funded by

KAFACI;

#### Collaborators

County Government of Kiambu;
