Sustainable Agricultural Livelihood Restoration, Rehabilitation and Resilience in Kenya

Guidelines on Sustainable Ruminant Feeds and Nutrition Security for Kenya

CHAPTER 3 KEY PILLARS AND ISSUES ON RUMINANT FEED AND NUTRITION SECURITY

3.4.3 Strategic Issue 3. Undeveloped feed markets

The factors leading to undeveloped feed markets are as follows:

- i. Low or lack of market networks that are transparent and regulated
- ii. Poor infrastructure and limited market information resulting to lack of awareness. This leads to constrained trade in feed resources that can stabilize the industry.
- iii. Existence of many feed resources whose distribution, availabilities and qualities are uncertain.
