## **Sustainable Agricultural Livelihood Restoration, Rehabilitation and Resilience in Kenya**

### **Guidelines on Sustainable Ruminant Feeds and Nutrition Security for Kenya**

---

#### **CHAPTER 3 KEY PILLARS AND ISSUES ON RUMINANT FEED AND NUTRITION SECURITY**

##### **3.4.4 Strategic Issue 4. Weak research institutions**

The following are the factors leading to weak institutions

- i. Limited research on feed technology development affects feed production by limiting the scope for improvement. Enhancing the available feed and fodder germplasm adapted to various environments is needed. Application of research results from universities and institutions will improve new development.
- ii. Inadequate technology dissemination and capacity-building opportunities limit the uptake of new technologies, processes, and techniques.
