## **Guidelines on Sustainable Ruminant Feeds and Nutrition Security for Kenya**

---

### **CHAPTER 3 KEY PILLARS AND ISSUES ON RUMINANT FEED AND NUTRITION SECURITY**

#### **3.4.7 Strategic Issue 7. Unfavourable political situation**

The section covers the major political factors contributing to feed and nutrition security instability

- i. Resource based conflicts and lack of security play a major role in deepening feed and nutrition insecurity. In fragile Counties, conflict, political instability and weak institutions intensify feed insecurity
- ii. Lack of political commitment and prioritisation of the feed and nutrition security, including failure to fully implement past pledges and commitments and insufficient accountability.
