SECTION V: - TERMS OF REFERENCE

SPECIFIC TERMS OF REFERENCE SHORT TERM EXPERT

Preparation of Action Document for the Climate Smart Value Chains Research Support Project (Climate Smart VCRSP) for KALRO under the productivity pillar in the 11th EDF

Arid and Semi-arid Lands Agricultural Productivity Research Programme (ASAL APRP)

Responsible to: KALRO/ASAL APRP National Coordinator

Location: KALRO HQ

1. Background

Funded by the European Union, under the European Development fund (10th EDF) the Kenya Agricultural and Livestock Research Organization (KALRO) has been implementing the Arid and Semi-arid Lands Agricultural Research Productivity Project (ASAL APRP), a 5-year research programme for the arid and semi-arid lands of Kenya. The overall goal of ASAL-APRP is *poverty reduction in ASAL through substantial and sustainable improvements in rural livelihoods (income and food security) and increased agricultural production and productivity* in line with the NARS Policy and ASDS. In order to do so, the objective of the EC funded ASAL APRP programme is to *increase agricultural productivity of the ASAL areas in the long term with the intermediate objective of increased agricultural production and productivity in ASAL through development, distribution and application of appropriate technologies*. ASAL APRP is routinely engaging with development partners for project implementation and orienting research along the felt needs of agricultural value chains. The programme is due to end in April 2017.

The European Union in Kenya is now discussing a possible allocation of EUR 5 million from the 11th European Development Fund (EDF) to support value chains research. The proposed action is foreseen under the 11th EDF NIP focal sector 1, "Food Security and Resilience to climate shock" and result area 4 "support to productive, adapted and market integrated smallholder agriculture in Kenya" within the context of NARS policy. Under 11th EDF grant contract, KALRO will carry out research aimed at generating Climate Smart information needed for increasing agricultural productivity and for strengthening agricultural value chains. KALRO is expected to actively engage with a range of partners (GoK extension services, non-governmental partner organisations, and agribusiness) to ensure efficient dissemination of technologies and commercialization of research products. KALRO research under the 11th EDF "support to productive, adapted and market integrated smallholder agriculture in Kenya programme" is to contribute towards Vision 2030 and forms an integral part of the Agricultural Sector Development Strategy (ASDS).

These Terms of Reference (TOR) are intended to guide the expert to identify and formulate a possible value chain consortium research programme to be supported under the 11th EDF Kenya Annual Action Programme (AAP) for 2017.

2. Specific information

KALRO/ASAL APRP seek the assistance of a Short Term Expert (STE) who will:

- Manage the KALRO 11th EDF proposal development process.
- Based on lessons learnt from the evaluations of ASAL APRP (ROM and mid-term evaluation) develop a focused KALRO 11th EDF research support programme, which should be streamlined, more targeted and developed along major themes fitting into the NARS/ support to productive, adapted and market integrated smallholder agriculture in Kenya” context and into the KALRO strategic plan.
- Ensure efficient programme implementation clearly outlines specific partnership structures for KALRO including partnership formalisation process and specific roles of foreseen partners from line ministries, universities, CBO/NGO and private business sector, among others.

- Propose a generic value chain checker with various criteria namely;

 - Culturally acceptable within the county.
 - Contributes to food, human, animal nutrition....security.
 - ..
- From the current 10th EDF identify value chains which are ready for upscaling and what could be their research needs if any.
- What other value chains which make business case within the Result area 4.
- Prepare a summary list of the value chains worth support.
- **Specific attention must be paid to exploiting future complementarities between KALRO 11th EDF Climate Smart and Consortium Research and 11th EDF non-research projects/interventions, both supported under “support to productive, adapted and market integrated smallholder agriculture in Kenya” framework , to ensure adequate response of KALRO EDF11 Climate Smart research to resource needs of 11th EDF non-research Climate Smart projects/interventions.**

- For KALRO grant concept proposal, factor in relevant private sector initiatives within the identified value chains for long term sustainability of the programme
- In collaboration with the ASAL APRP National Coordinator and senior KALRO scientists finalise definition of the major KALRO research themes based on identified value chains under 11th EDF and select long-term KALRO research strategies/concepts and projects that will significantly contribute towards those themes, improve agricultural productivity and strengthen agricultural value chains.
- Propose a management structure for the identified value chains with KALRO as Secretariat
- Propose an overall Project Management Structure with KALRO as the *secretariat* (hosting the Project Management Unit - PCU) and representation from the value chains.
