

TEA RESEARCH FOUNDATION OF KENYA

ANNUAL TECHNICAL REPORT FOR THE YEAR 2013

HEAD OFFICE AND CENTRAL RESEARCH UNIT
Timbilil Estate, P.O. Box 820 - 20200, Kericho, Kenya
Telephone: Kericho +254-052-20598 & 20599
Fax: +254-052-20575
E-mail: info@tearesearch.or.ke
Website: www.tearesearch.or.ke

SUB-STATION
Kangaita Sub-Station, P.O. Box 987 - 10300, Kerugoya, Kenya.
E-mail: trfkkangaita@tearesearch.or.ke; trfkkangaita@gmail.com

Cover Page Description

A photo of the distinctness, uniformity and stability (DUS) trial at TRFK, Timbilil Estate, Kericho

TABLE OF CONTENTS

VISION	v
MISSION	v
MANDATE	v
BOARD OF DIRECTORS	vi
Staff and Finance Committee.....	vi
Research Advisory Committee	vi
Audit Committee.....	vi
TEA RESEARCH FOUNDATION OF KENYA MANAGEMENT STAFF.....	vii
Directorate and Administration:	vii
DIRECTOR'S REPORT	x
Research Highlights	x
STAFF TRAINING/WORKSHOPS/SEMINARS/SYMPOSIA/FELLOWSHIPS.....	xiii
LIST OF PUBLICATIONS.....	xv
VISITORS TO TEA RESEARCH FOUNDATION OF KENYA DURING 2013.....	xvi
CROP IMPROVEMENT AND MANAGEMENT (CIM) PROGRAMME	1
TEA BREEDING AND GENETIC IMPROVEMENT (TBGI) DIVISION	1
TEA IMPROVEMENT SECTION	1
Breeding experiments	2
TRFK/CIM/BREED/1a: Breeding for potential in combined yield and black/green tea quality	2
TRFK/CIM/BREED/1b: Polyploidy breeding	2
TRFK/CIM/BREED/1c: Breeding for pest resistance	3
TRFK/CIM/BREED/1d: Breeding for tolerance to environmental stress	4
TRFK/CIM/BREED/1e: Breeding for green tea varieties.....	4
TRFK/CIM/BREED/1f: Breeding for tea varieties with high levels of bioactive molecules.....	5
Progeny Trials	5
Pedigree.....	5
Clonal Field Trials.....	7
Clonal adaptability trials (participatory clonal field trials).....	21
MOLECULAR INVESTIGATIONS	24
Genetic Markers	24
TRFK/CIM/GENET 3b: Detection of genetic diversity in tea using molecular markers.	24
TRFK/CIM/GENET 3c: Tea and its related species.....	26
TRFK/CIM/GENET 3d: Quantitative trait loci mapping in tea.	32
TRFK/CIM/GENET 3e: Germplasm evaluation and characterisation.....	34
TRFK/CIM/DUS/2009: Distinctness, Uniformity and Stability test	35
Genomic Markers.....	44
TRFK/CIM/GENET 3f: Functional genomics of drought tolerance in tea	44
BOT/GENET 3f: Identification of drought responsive genes in the tea plant.....	44
BOT/GENET 3f: Functional evaluation of identified genes	46
INTEGRATED PEST AND DISEASE MANAGEMENT INVESTIGATIONS	50
PEST AND DISEASE MANAGEMENT AND ECOLOGY	50
Pest and Disease Surveillance	50
ENTOMOLOGICAL STUDIES	51
Host-plant resistance studies and locality effects on pest incidences	51
Screening of clones for susceptibility/resistance to mite infestation	51
TRFK/CIM/CAT/KANGAITA/2005: Mite Damage Assessment in Kangaita Substation.....	53
SUSTAINABLE ECOSYSTEM MANAGEMENT & CONSERVATION (SEMC) PROGRAMME	65
SOIL FERTILITY, PLANT NUTRITION AND FERTILIZER USE.....	65
SEMC/CHEM 7F: Long-term response of seedling tea to high rates of NPKS fertilizer, Timbilil Estate, Kericho.	65
Effects of rates of NPK 25:5:5 fertilizer application on the yields.....	66
Effects of rates of NPK 25:5:5 fertilizer application on leaf nutrient uptake.....	66
Effects of N-rates and plucking frequencies on the yields	69
Effects of nitrogen fertilizer rates on the yields of clonal teas	71
Effects of plant population and nitrogen fertilizer rates on yields.....	72
Root studies and nutrient contents of clonal and seedling tea plants	72
SEMC/CHEM 11F: Root studies and nutrient contents of clonal tea plants at Timbilil Estate	72

Old tea lands studies	73
Effects of the micronutrients and clones on the yields of tea on replanted on uprooted area.....	73
Studies of micro-nutrients in clonal tea plants	74
Effects of supplementing NPKS 25:5:5:5 with micronutrients on the yields of clone AHP S15/10 tea.....	74
Fertilizer studies in mechanically harvested high yielding clonal teas	75
SEMC/CHEM 45F: Effects of soil applied molybdenum on clonal tea yields, Sotik Tea Co. Ltd., Sotik	75
Effects of the fertilizer treatments on tea yields (sorted leaf).....	75
SEMC/CED 25: Bringing tea into bearing.....	84
ENVIRONMENTAL STUDIES.....	102
SEMC/CED 51: Effect of weather variability on tea production for the year 2013	115
TEA PROCESSING AND VALUE ADDITION PROGRAMME	119
BIOCHEMISTRY STUDIES.....	119
TPVA001/13: Quality aspects of processing various ratios of ordinary green and purple tea into black tea.....	119
TEA PRODUCT DIVERSIFICATION AND VALUE ADDITION	125
TPVA/FS/PP/05: Extraction and quantification of polyphenols in different parts of the tea plant of selected clones .	126
TPVA/FS/PP/06: Tea Fortified Fruit Juice Blends.....	130
TPVA/FS/PP/07: Tea fortified Confectionery.....	136
TPVA/FS/PP/07 (2): Packaging material for tea fortified fruit juice blends and tea fortified cookies.....	139
ECONOMICS, FIELD ADVISORY AND CORPORATE COMMUNICATIONS (EFACC).....	142
FIELD ADVISORY	142
EFACC/FA/1: Visits and visitors	142
EFACC/FA/1: Highlights of the visits	144
EFACC/FA/1: Visitors.....	144
EFACC/FA/1: Highlight of the visits	145
EFACC/FA/2: Field/Open Days/Shows.....	145
EFACC/FA/2: Achievements/ challenges.....	148
EFACC/FA/3FA/3: Training/courses/Symposia/Seminars	148
EFACC/FA/4: Demonstrations.....	149
EFACC/FA/5: Publications.....	150
SOCIO-ECONOMICS	150
EFACC/SOECO 1: Tea Consumer Needs Report	150
EFACC/SOECO 1: Market segment away from tea growing region	159
EFACC//SOECO 2: Customer Satisfaction Evaluation Report.....	160
APPENDICES	163
